Lumenova™ Lights Celebrity Chef Bobby Flay's Burger Palaces

February 25, 2014, Toronto, ON – CRS Electronics Inc. ("CRS" or the "Company"), (TSX-V:LED), a developer and manufacturer of LED lighting products, today announced that its Lumenova lamps have been selected to light all Chef Bobby Flay's Burger Palace restaurants.

This high end restaurant chain features gourmet burgers with a sophisticated architectural decor.

The lighting design was done by Focus Lighting Inc, a global and award winning lighting design firm located in New York City.

"Through the added layer of light, we brought a sense of composition, balance, and excitement. We carefully analyzed each surface to properly accentuate its architectural beauty with environmentally friendly LED lighting . We found Lumenova's warm, consistent color temperature superior to a multitude of products we tested. They were an important tool in meeting our design objectives," said Paul Gregory, Founder & President of Focus Lighting Inc.

Bobby Flay's Burger Palace opened locations in 19 cities, and ten additional locations are planned in 2014.

"We are honored to be selected by one of the most prestigious lighting design firms in the world. Bobby Flay is an amazingly talented Chef, and we are delighted to be associated with his brand," said Travis Jones, President & CEO of Lumenova.

About CRS Electronics

CRS Electronics Inc. (TSX-V:LED), a Lighting Facts partner, is a leader in the emerging, rapidly-growing market of high efficiency light-emitting-diode ("LED"), or, solid state lighting ("SSL"). The principal activities of CRS Electronics include the development, manufacture and sale, primarily in North America, of indoor lighting products such as LED replacement lamps, exterior LED warning lights for school buses, child safety systems for school buses, LED architectural lighting fixtures, and contract manufacturing of LED circuit boards. As an innovator of LED solutions since 1998, CRS Electronics continues to expand its product portfolio and market presence with business partners and customers, and under its own product brands, which include CRS Electronics and Lumenova™.
