CRS Electronics Reports Fiscal 2014 Q2 Financial Results

August 29, 2014, Toronto, ON – CRS Electronics Inc. ("CRS" or the "Company"), (TSX VENTURE:LED), a developer and manufacturer of LED lighting products, today announced results for the period ended June 30, 2014.

"Overall Q2 F2014 sales are 26% higher than the same period last year. Decreased product costs have increased our gross margin by 48% from the same period last year which allows us to be competitive in the commercial marketplace. LED lamp sales have increased 86% from Q2 2013, and we are very pleased to see Lumenova™ gain acceptance in the North American commercial market," said Travis Jones, President & CEO of CRS Electronics.

"Our strategy is to continue reducing costs while increasing sales as we prepare for major new product introductions in Q3 F2014."

About CRS Electronics

CRS Electronics Inc. (TSX-V:LED), is a leader in the emerging, rapidly-growing market of high efficiency light-emitting-diode ("LED"), or, solid state lighting ("SSL"). The principal activities of CRS Electronics include the development, manufacture and sale, primarily in North America, of indoor lighting products such as LED replacement lamps, exterior LED warning lights for school buses, child safety systems for school buses, LED architectural lighting fixtures, and contract manufacturing of LED circuit boards. As an innovator of LED solutions since 1998, CRS Electronics continues to expand its product portfolio and market presence with business partners and customers, and under its own product brands, which include CRS Electronics and Lumenova™.
