CRS Electronics Reports 2013 Second Quarter Financial Results

August 28, 2013, Welland, ON – CRS Electronics Inc. ("CRS" or the "Company"), (TSX-V:LED), a developer and manufacturer of LED lighting products, today announced results for the three and six months ended June 30, 2013. The Company reported sales of $565,300 and $1,303,800 for the three and six months ended June 30, 2013 compared to $687,700 and $1,999,700 for the same periods one year ago. Net loss for the three and six months ended June 30, 2013 was $1,211,300 and $2,168,400 compared to $981,600 and $2,127,000 for the same periods one year ago. Working capital at June 30, 2013 was $2.5 million, including $3.3 million in cash.

For Fiscal 2013 the Company continues to focus on increasing revenues by launching a new commercial sales initiative for both LED lamps (bulbs) and architectural lighting fixtures in North America, and achieving ENERGY STAR® certification and DLC certification to support this commercial effort. "We have solidified our Asian supply chain and realized a significant decrease in product costs without compromising quality," said Travis Jones, President & CEO of CRS Electronics. "I'm delighted with our quality, and we are ramping up inventory for a major LED lamp introduction this autumn."

About CRS
CRS Electronics, Inc. (TSX-V:LED), a Lighting Facts partner, is a leader in the emerging, rapidly-growing market of high efficiency light-emitting-diode ("LED"), or, solid state lighting ("SSL"). The principal activities of CRS Electronics include the development, manufacture and sale, primarily in North America, of indoor lighting products such as LED replacement lamps, exterior LED warning lights for school buses, child safety systems for school buses, LED architectural lighting fixtures, and contract manufacturing of LED circuit boards. As an innovator of LED solutions since 1998, CRS Electronics continues to expand its product portfolio and market presence with business partners and customers, and under its own product brands, which include CRS Electronics™, QuantumLED™ Lighting, and Lumenova™ Architectural Lighting.
